# Come un grande quadro

Like a big painting

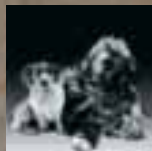

La nostra non è una semplice carta da parati!

Il nostro obiettivo non è quello di fornire un rivestimento per la parete, ma è quello di dare una forte emozione, come un grande quadro che trasmette sensazioni uniche. I soggetti presenti in questo catalogo sono stati ideati e disegnati da ADRIANI & ROSSI e quindi unici ed esclusivi. Da vent'anni la nostra forza è quella di abbinare ad ogni situazione il soggetto e il tipo di carta per far risaltare al massimo l'emozione che vogliamo dare. Collezioni in continua evoluzione e sempre originali da abbinare alla nostra collezione di oggetti unici al mondo a saper creare il vero Total Look.

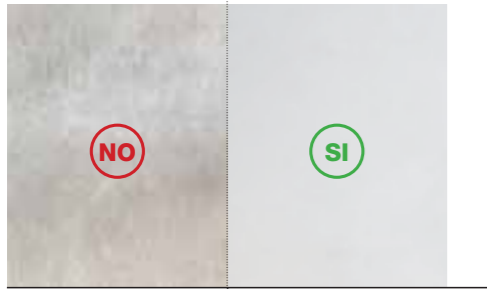

This is not a simple wallpaper!

Our aim is to create a strong emotion, not only to provide a wall covering; like a big painting that conveys unique feelings. All the patterns in this catalogue have been thought and designed by ADRIANI & ROSSI so they are exclusive and unique. For twenty years our force is to combine the pattern, the wallpaper finish to every location in order to have the maximum result of the emotion we would give. We provide an evolving collection, original patterns meet our unique objects to create a real Total Look effect.

# Il nostro metodo. our laying system.

## 01 \_ Preparazione della parete. Wall Preparation.

Eliminare sporcizia e residui vari dalla parete utilizzando una spatola di setola dura. Eventuali buchi, crepe o difetti della parete vanno colmati con uno stucco di buona qualità che poi va liscio e fatto asciugare. La superficie deve essere asciutta e liscia.

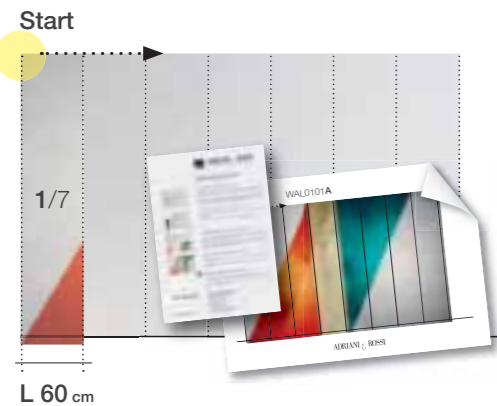

Remove all the dirt from the wall with a hard bristle brush. The substrate must be compact and free of cracks, if there are holes or defects you must fill it with high quality plaster. The wall must be perfectly dry and smooth.

## 02 \_ Applicare la colla sulla parete. Applying the glue to the wall.

Utilizzando un rullo, applicate una mano di colla uniformemente su tutta la parete e lasciare asciugare per 15/30 minuti.

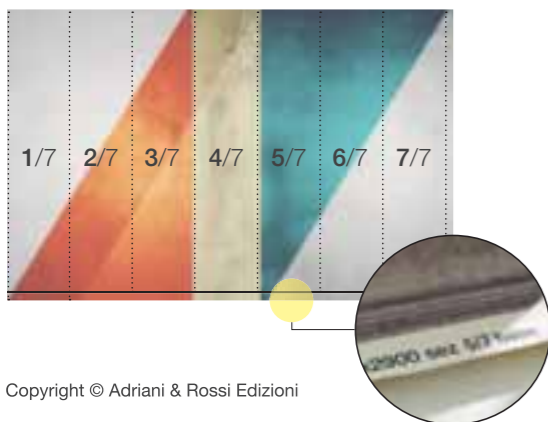

Using a roller, evenly apply a coat of glue to the whole wall and allow to dry for 15/30 minutes.

## 03 \_ Wallpaper diviso in fasce da 60 cm. Wallpaper in 60 cm stripes.

In dotazione viene fornito un foglio con stampato lo schema della carta da parati suddivisa in fasce da 60 cm e numerate con la sequenza corretta di applicazione e un foglio con le istruzioni di montaggio. Nello schema è segnato il punto di partenza dell'applicazione della prima fascia (da sinistra o da destra).

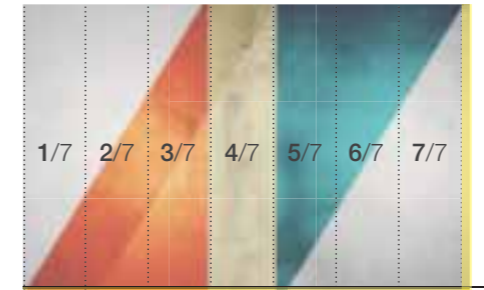

Wallpaper is split in stripes 60 cm width, they are numbered with the correct sequence to follow, we provide an installation sheet and relevant laying plan. On the laying plan is showed the starting point for applying the first stripe (from the right or left side).

## 04 \_ Posizionamento del primo telo. Positioning the first sheet.

Dopo aver applicato la prima fascia, seguire la numerazione delle fasce stampata sulla parte inferiore dedicata all'abbondanza.

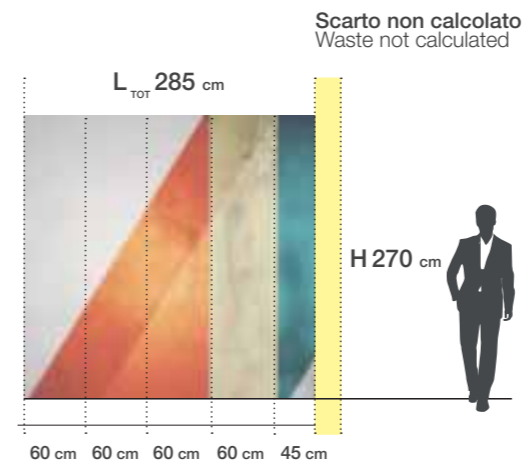

Once the first stripe is applied, follow the number of the stripes, it is printed on the excess material, at the bottom part of the wallpaper.

## 05 \_ Rimuovere le abbondanze. Remove the wallpaper excess.

Le abbondanze sono disposte nella parte inferiore di tutte le fasce e nella parte di destra dell'ultima fascia. Dopo aver completato la stesura di tutte le fasce tagliate le eccedenze con un cutter.

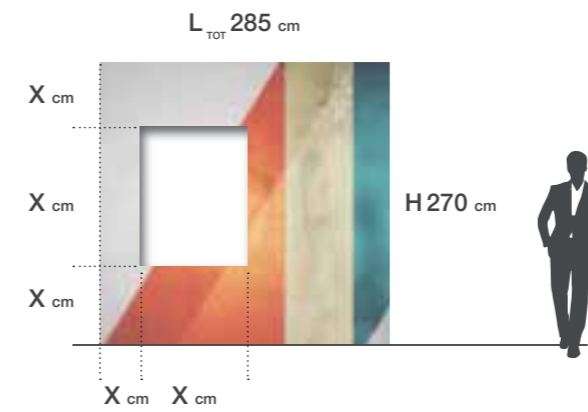

The wallpaper excess is placed on the bottom of each stripe, and on the right side of the last stripe. Once the installation of all the stripes is completed, trim the excess with a cutter.

## 06 \_ Calcolo della carta da parati. How to calculate the wallpaper.

Il calcolo della carta da parati viene fatto semplicemente indicando la superficie reale della parete **L x H cm**, senza abbondanze e senza eventuali scarti. **Il costo viene calcolato sulla superficie effettiva della parete, non dal numero di fasce da 60 cm. Gli scarti non vengono calcolati.**

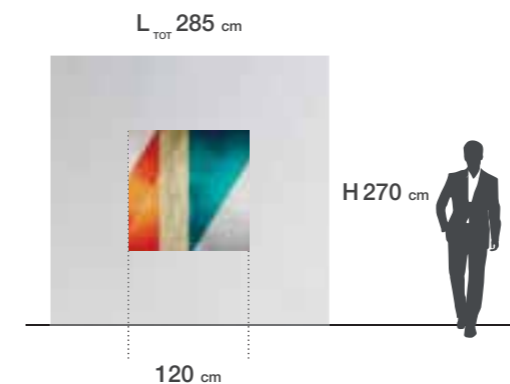

Calculate the real surface of the wall to be covered (**length x high cm**), without excess and waste. **The price is calculated for the real wall surface, not considering the number of the 60 cm stripes. The excess is not calculated.**

## 07 \_ Pareti con fori o zone da non ricoprire. Walls with holes or free areas.

Indicare la posizione e la dimensione di eventuali fori presenti sulla parete da rivestire come porte, finestre ed altro. Il calcolo della carta da parati viene fatto sulla superficie netta. **Gli scarti non vengono calcolati.**

Specify the size and position of the holes on the wall, like doors, windows etc. The calculation of the wallpaper is made on the clear surface. **Excesses are not considered.**

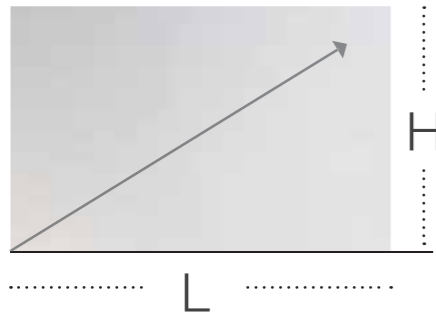

## 08 \_ La carta da parati come quadro sulla parete. Wallpaper: painting on a wall.

Volendo posizionare la carta da parati su una porzione della parete ad esempio come un quadro, **c'è la possibilità di utilizzare fasce da 120 cm**. Questo ci permette di ottimizzare al meglio la carta e di avere un risultato uniforme come fosse un grande quadro.

**We can provide stripes of 120 cm wide** for laying the wallpaper on a part of the wall, like a painting. So we can obtain an uniform result, like a big painting.
